ANTI-TRESPASS AND CATTLE GUARD

NETWORK RAIL APPROVED

Rosehill Rail

Rosehill Holdfast

This latest innovation presents major benefits to existing anti-trespass installations and is set to become the natural successor to wood. Like all Rosehill products, it has been designed and constructed for easy installation; maximum safety; durability and long life.

Specifications and Benefits

- Very simple to install
- Supplied complete with simple fixings
- Easy to remove and replace for tamping

Safety

- Will not break up
- No threat of track circuitry failure

Lifespan and Durability

- Indefinite (25 years+) subject to correct installation

Compatibility

- For use with all rubber crossings (polymer, concrete, rubber, timber)
- Fits any sleeper and any rail section
- Cut to fit for the six foot area

Manufacture

- Designed and manufactured in the UK
- Complete rubber construction
